AMENDMENTS TO THE CLAIMS

Please amend the claims as follows:

Claim 1 (Cancelled).
Claim 2 (Cancelled).
Claim 3 (Cancelled).
Claim 4 (Cancelled).
Claim 5 (Cancelled).
Claim 6 (Cancelled).
Claim 7 (Cancelled).
Claim 8 (Cancelled).
Claim 9 (Cancelled).
Claim 10 (Cancelled).
Claim 11 (Cancelled).

Claim 12 (Currently amended). In a method of preventing crown hydration of a golf green, the improvement comprising:

- (a) providing a polyethylene tube;
- (b) stretching the polyethylene tube in order to form a stretched tube;
- (c) cutting the stretched tube in a spiral fashion to form a first sheet with force striations at an acute angle to an edge of the sheet;
- (d) forming a second sheet in a similar manner as the first sheet, the second also having force striations at an acute angle;
- (e) securing a surface of the first sheet to a surface of the second sheet with the force striations of the first sheet at a relative angle to the force striations of the second sheet to form a layered sheet;
- (f) providing a plurality of the layered sheet, the plurality of the layered including at least a first layered sheet and at least a second layered sheet;
- (g) securing an edge of the at least a first layered sheet to an edge of the at least a second layered sheet a sufficient number times to form a golf green cover;
- (h) reinforcing at least one part of the golf green cover to a reinforced section in order to permit receiving a releasable holding means; and
- (i) ~~applying~~ applying the holding means through the ~~reinforced~~ reinforced section.

13 (Original). The method of Claim 12 with the improvement further comprising:

- (a) at least one layered polyethylene sheet being substantially water impermeable;
- (b) the layered polyethylene sheet having at least a first layer and a second layer;
- (c) the first layer and the second layer each having a directional orientation determined by force striations;
- (d) the directional orientation of the first layer being at an angle relative to the directional orientation of the second layer
- (e) the turf cover being durable;
- (f) the first layer having a first edge;
- (g) the second layer having a second edge;
- (h) the force striations being at an acute angle to the first edge;
- (i) the force striations being at an acute angle to the second edge; and
- (j) the acute angle of the first edge being at a relative angle to the acute angle of the second edge.

14. (Original) The method of Claim 13 with the improvement further comprising:

- (a) the acute angle to the first edge and the acute angle to the second edge being 20 to about 70 degrees; and
- (b) the relative angle between the first layer and second layer being about sixty degrees to about 120 degrees.

15. (Original) The method of Claim 14 with the improvement further comprising:

- (a) the acute angle to the first edge and the acute angle to the second edge being 30 to about 60 degrees; and
- (b) the relative angle between the first layer and second layer being about seventy degrees to about 110 degrees.

16. (Original) The method of Claim 15 with the improvement further comprising:

(a) the acute angle to the first edge and the acute angle to the second edge being 40 to about 50 degrees; and

(b) the relative angle between the first layer and second layer being about eighty degrees to about 100 degrees.

17 (Original). The method of Claim 16 with the improvement further comprising:

(a) the at least one layered polyethylene sheet being at least a first layered polyethylene sheet and at least a second layered polyethylene sheet;

(b) the first layered polyethylene sheet and the second layered polyethylene sheet being secured with an adhesive in an edge to edge to form at least a part of the winter turf cover;

(c) the adhesive forming a water tight barrier;

(d) the acute angle to the first edge and the acute angle to the second edge being 40 to about 50 degrees; and

(e) the relative angle between the first layer and second layer being about eighty degrees to about 100 degrees.

Claim 18 (Cancelled).

Claim 19 (Cancelled).

Claim 20 (Cancelled).

Please cancel Claims 1 to 11 and 18 to 20.
